Dear Akram Atallah,

A short note to thank you again for meeting with me in Marrakech and officially recognizing the beginning of the Cooperative Engagement Process. My thanks for forwarding the Nameshop letter to the Board and CEO. We hope you will pay attention to the several points mentioned in the letter.

We are still concerned that ICANN has not yet looked at the issues raised by Nameshop on the evaluation and reconsideration of the Nameshop new gTLD application, in particular, the issues surrounding its change request for the string .Internet in good faith. You left open my request for a specific time to sit down with you and examine the issues one-by-one with due attention and regard. I look forward to hearing from you.

Kind regards.--
